WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Two the same, 16 mm plate, laser or waterjet cut.
Bore centres 150 mm apart; eyes 44 mm across round each bore;
body 32 wide between the eyes.
Bores 25.4 mm, reamed; drill the two links clamped together so the centres match.
Deburr the edges; no notches or scratches across the body.
Check: both links on two 25 mm pins at once, with no bind.
