WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Block 30 long x 90 wide x 92 tall, faces square and parallel.
Each 90 x 30 face: two M16 holes 26 deep, on the middle of the 30 mm length, 35 mm below and 20 mm above the cylinder axis.
Its back face takes the push of the fixed blade.
Check: stands square between the plates with no gap at either.

RubbleJack nose block: making sketch
